

Quick Look Drone Imaging for storm damage 9/7/21

Need some reassurance? We do storm damage assessment which consists of a drone flyover taking routine 4-6 high resolution pictures of you property and obtain additional pictures of any obvious damage for further definition.

Picture processing, review, damage annotation, and delivery occurs within 6-24 hours. Depending on our schedule, we may be able to view the pictures right away on site giving a verbal result. Delivery is by an online transfer system (WeTransfer) using email.

We also do dedicated roof assessment with in-depth picture acquisition and a written report for repairs and/or insurance claims. Please see our price schedule on the Inspection Service Category.

Quick Look Storm Damage Imaging. \$80

Travel charge of \$0.60 per mile over 40 miles round trip.
